

Aiwyn Payments

Billing transformed into a growth driver

Aiwyn Payments lets you set payment schedules, collect retainers upfront, and run recurring billing without touching a thing. Clients pay the way they want — autopay, mobile, or online — and firms get cash faster with less chasing. Secure, PCI-compliant, and built for accounting firms.

Faster payments
and cash flow

Increased
staff capacity

Greater control
and transparency

Enhanced
client experience

“With Aiwyn, our days in AR dropped from 90 days closer to 14. We use our line of credit dramatically less. Our interest expense has dropped by hundreds of thousands a year.”

Managing Partner, Top 500 firm

40%

faster time to cash
after an invoice

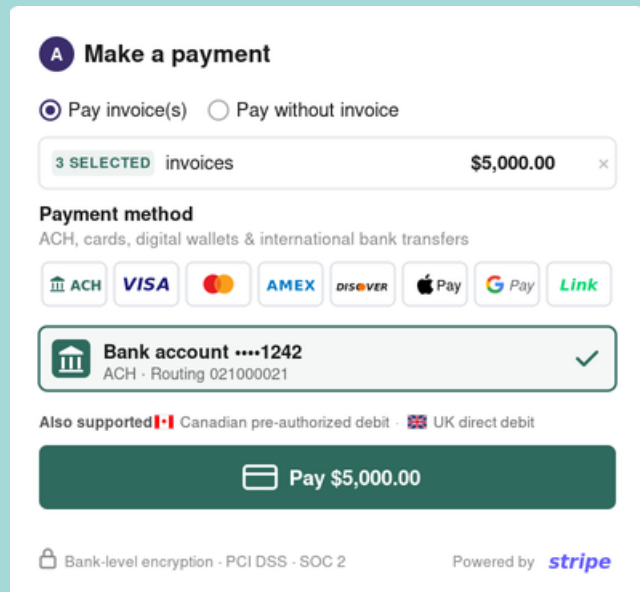

60+

hours saved per month on
payment reconciliation

Why 800+ firms rely on Aiwyn Payments

Aiwyn Payments gives your clients the payment options they already use everywhere else – autopay, Apple Pay, and Google Pay – so paying your firm is as easy as any other bill they handle. Fewer reminders sent, fewer dollars left on the table.

Modern digital client experience

A branded portal, clean invoices, and a simple checkout will make paying feel as polished as the rest of your client relationship.

More capacity, not more headcount

Your team shouldn't be busy manually reconciling payments or chasing down invoices. Aiwyn handles the follow-up so your staff stays focused on client work.

Future-ready for growth

Lower DSO and consolidated billing across every entity gives growing firms and PE roll-ups the financial visibility they need to move faster and command higher valuations.

Key features

Accelerating cash flow and reducing manual work for modern firms.
