Win the workflow today

Intake chaos, communication gaps, status blind spots. Aiwyn's Gather & Deliver products solve the problems firms feel right now.

Integrate without disruption

Most firms already have software they trust. Aiwyn wraps around it, handling returns natively where we can, and seamlessly orchestrating work across your systems.

Empowered to leverage AI

AI lab partnerships and 'walled garden' secure environments allow firms to leverage cutting-edge AI tools in their tax workflow, securely.

Intake to filing, collaboration to payment.
Aiwyn brings it all together for modern accounting firms.
